EXPERIENCE

Junior Software Engineer — *September 2019 - December 2019*

Revtech Media Pty Ltd (One Big Switch) — Sydney, Australia

Developing React Single Page Application and Components for marketing and lead generation websites (One Big Switch, FiftyUp Club and 9 Saver) and testing them using React Testing Library and Jest Framework. I also developed the REST APIs using AWS Lambda (Node Js), DynamoDB and other Microservices. Moreover, I was also responsible for refactoring and developing the current AWS Infrastructure using cloudformation templates.

Front End Developer — *March 2016 - December 2016*

Shrello — Baroda, India

I worked in the HR Domain, our entire effort was to develop a smart hiring platform that had candidate profiles sourced from various digital Footprints like LinkedIn, Github and about.me. I was responsible for developing the User Interaction and User Experience to facilitate a smooth hiring experience for the recruiters.

EDUCATION

Masters of Information Technology — *2017-19*

Charles Sturt University, Sydney - GPA: 5.44

Bachelor in Computer Science and Engineering — *2013-17*

Institute of Technology & management University,

Vadodara, India - CGPA: 8.13

PROJECTS

BestPrix — Jan *2017-May 2017*

An e-commerce project which allowed users to compare prices across various e-commerce websites and monitor them with smart alerts. The bestprix's database was curated by scrapping various ecommerce websites using a spider developed in Scrapy (Python).

Client Management (Cms) — June 2017 - August 2017

Developed a client management system to manage customer groups, product catalog and track services with payment reminders and integrated emails follow ups. The entire project was developed on Codeigniter (PHP MVC), MySQL, Bootstrap, Jquery, HTML & CSS.

TECHNOLOGIES

JavaScript ES6	PHP/MySQL
ReactJs	CodeIgniter
NodeJs	HTML5 / CSS3
TDD	Sass
AWS Serverless	Python
Webpack	BABEL

ACHIEVEMENTS

Incubated at Startup Village (sv.co) (2016 – 2017)

Runner Up at Web Design Competition (2013)

Presented Innovative Idea at iCreate (01/2014)

OTHER NOTEWORTHY STUFF

Deployed and contributed to various web applications used for college's internal purpose.

Java Training (Oracle) (August - 2015)

Pursued React Js and Javascript ES6 training from Udemy
